The test results show that this device meets the FCC rules. Those limits are set to protect residential areas from the devices with harmful emission. This device will produce, use and radiate radio frequency energy. In addition, failure to follow the user's manual to install or use this device might produce harmful interference with radio communication. Notwithstanding the foregoing, it does not guarantee that this type of harmful interference does not occur in some special installations. The interference caused by this device to the reception of radio or television signals may be verified by turning it on and off. Any changes or modifications to this TFT LCD would void the user's authority to operate this device.

Important Recycle Instruction:

 Lamp(s) inside this product contains mercury. This product may contain other electronic waste that can be hazardous if not disposed of properly. Recycle or dispose in accordance with local, state, or federal Laws. For more information, contact the Electronic Industries Alliance at WWW.EIAE.ORG. For lamp specific disposal information check WWW.LAMPRECYCLE.ORG.

- 5** To the network
- 6** To a VGA monitor with a VGA- port
- 7** To an available wall outlet (using the power adapter and power cord)

Start Your Installation

Remove the Back Cover

Please follow these instructions to remove the cover on the back panel of the AIO so that you can hookup the cables to associated connector.

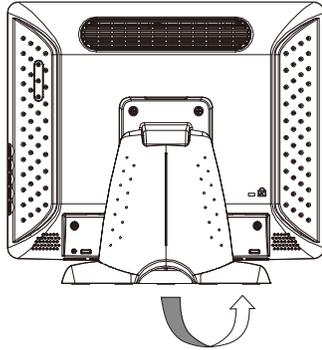

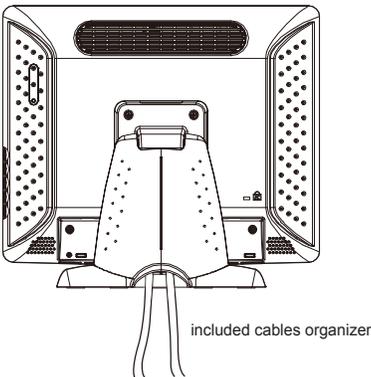

Figure A

1. To remove the back cover, follow the arrows in figure A and pull out with your fingers and the cover should be removed from the stand.
2. Attach the cover back to the AIO stand by pressing firmly until the tabs snap into place. You may also keep the cables in order by using the cable organizer.

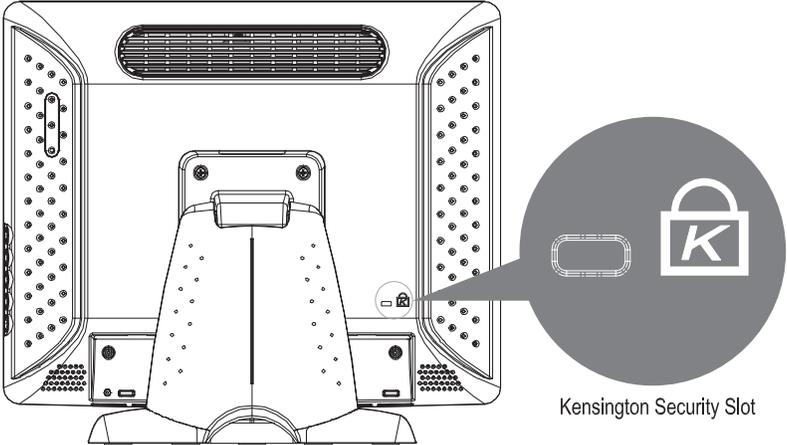

Note!

You can place the AIO flat horizontally to make it easier to connect the cables. Please make sure that you place it on an even surface lest the AIO should be damaged by scratches or collision.

Kensington Security Slot

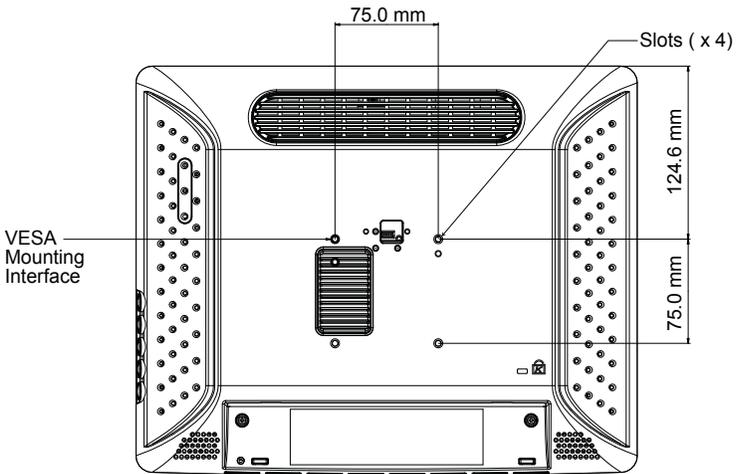

The computer can be secured to your desk or any other fixed object with Kensington lock security products. The Kensington lock is not included.

VESA Mount for Your Computer

This computer conforms to the VESA Flat Panel Mounting Physical Mounting Interface Standard which defines a physical mounting interface for flat panel computers, and corresponding with the standard mounting devices of flat panel computer, such as wall and table arms. The VESA mounting interface is located on the back of touch computer.

To mount the computer on a swing arm or other mounting fixture, follow the instructions included with the mounting fixture to be used, please note to mount touch computer to the devices (either mounting fixture or swing arm) what conforms to the UL listed.

Warning!

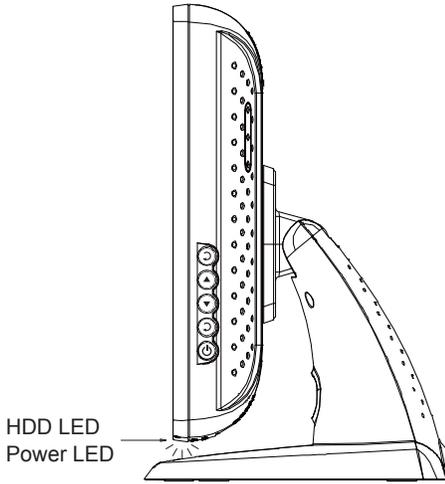

Please select the proper screws!

The distance between the back cover surface and the bottom of the screw hole is 8 mm. Please use four M4 screws diameter proper length to mount your monitor.

Please note: the mounting stand must be able to support at least 11 lbs (5Kg).

Appendix

Troubleshooting

If you are experiencing trouble with the AIO system, refer to the following. If the problem persists, please contact your local dealer or our service center.

Problem: No image appears on screen.

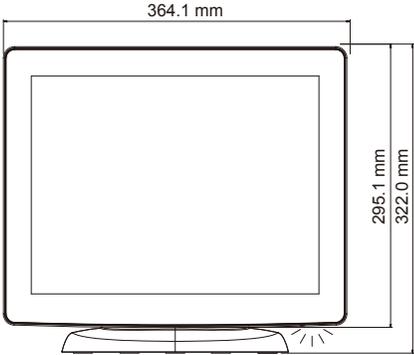

- ▶ Check that all the I/O and power connectors are correctly and well connected described in the "Installation" section.
- ▶ Make sure the pins of the connectors are not crooked or broken.

Problem: Partial Image or incorrectly displayed image.

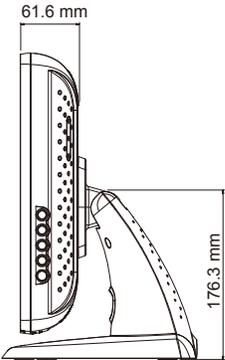

- ▶ Check to see if the resolution of your computer is higher than that of the LCD display.
- ▶ Reconfigure the resolution of your computer to make it less than or equal to 1024 x 768.
