

# MQ 156 POS

## Perfect for public settings

Our new group of products, POS, are specifically designed for Point-Of-Sales settings – stores, information booths and checkout counters. Such an environment requires a monitor to the kind of rough treatment that you won't find in an office: children in shopping carts with itchy fingers, tangled purse straps, piles of merchandise and spilled milk cartons, just to name a few possibilities.

### Ergonomics

Thanks to MultiQ's patented PURETECH® technology, we have brought electrical emissions down to 96% below TCO'99 – a highly stringent environmental standard. With the exception of touch screens and MQ122E POS, all MultiQ monitors are equipped with PURETECH®.

### Durability

A monitor can be a highly vulnerable piece of equipment, particularly in a public setting where lots of people pass by. MultiQ monitors have housings of aluminium instead of plastic, plus a protective glass in front of the sensitive picture panel. The antireflection coated glass can be easily wiped using ordinary window cleaner.

### Design

A monitor no longer needs to be bulky and drab. What distinguishes MultiQ from other flat monitors is its elegant but subdued appearance, for which MultiQ has won the Excellent Swedish Design award.

### Custom Design

Just think how nice it would be if your monitor could fit in with the rest of your office or workplace. You might want it to blend in with the surrounding colours or serve as a graceful contrast. We can adapt our monitors to your colour, wiring or mounting specifications. Call us for an offer, or read more about our options at [www.multiq.com](http://www.multiq.com)

### Many models of the same monitor

The POS monitor is incredibly flexible. Mounted on a POS stand, it can tilt back 80 degrees, so that you can alternate between standing and sitting as you work. We deliver the standard model with a VESA holder, which you can enhance with a vertically adjustable stand (POS Stand) or the Wall Bracket for POS, which allows you to fasten your monitor to the wall. Other options include touch resistant Elo AccuTouch or capacitive Micro Touch technology. The POS monitor comes in 12", 15" and 19" models and in a metallic colour as standard.

## Technical specifications MQ 156 POS

R7B

Active Picture Size	15" (38 cm)
Active Picture Area	304.1 mm (H) x 228.1 mm (V)
Resolution	1024 x 768, XGA
Luminance output	250 cd/m2 (Typ.)
Contrast ratio	500:1 (Typ.)
Response time	16 ms (Typ.) (Tr+Tf)
Plug & Play	DDC1/2B
Viewing angle H/V	(CR 10:1) -70° ~ 70° (Typ.) (CR 10:1) -60° ~ 65° (Typ.)
Number of colours	262.144/16.7 M
LCD Technology	TFT, compensation film
Display surface	Conductive glass panel with Antiglare treatment
On Screen Display	Yes
On Screen Menu	Autoset, Brightness, Contrast, Picture settings, Colour settings, Miscellaneous
Pixel size	0.297 mm (H) X 0.297 mm (V)
Pixel position	RGB vertical stripe
Frequency range	Horizontal 31.5 k - 60 kHz Vertikal 40-75 Hz (XGA)
Recommended frequency	Vertical 60 Hz, XGA
Interface	Analog
Video bandwidth	80 MHz
Video input	Analogue RGB 0.7 Vpp
Synchronisation	Separate sync
User controls	Power/Menu, Select, + and -
Connectors	VGA and power
Cable lengths	VGA 1.75 m, Power 1,2 m + 1,5 m
Power management	VESA DPMS
Power	External power supply Input 100-240 VAC / 50-60 Hz Output 12 VDC, 3.5 Amp.
Power consumption	Normal 30 W Stand-by <4 W
Temperature	0-40°C
Storage temperature	-10-60°C
Approvals	CE, TÜV/GS, UL, FCC,
Dimensions (WxHxD)	386 x 288 x 55 mm
Net weight	5.2 kg
Total weight	6.7 kg
Warranty	3 years SendIT

### MQ156 POS

Part no	Option
FPD100121	Protective glass
	VESA
