

TOUCHSCREEN POS TERMINAL

ODYSSÉ

THE ULTIMATE POS SOLUTIONS

Odysse is the first exclusive 'design oriented', customisable and multicoloured collection of ePOS terminals •

Developed by Aures under the POSLIGNE® brand, ODYSSE can change colour thanks to a clever removable clip-on system, allowing the terminal to blend perfectly with in-store decor and design.

The soft flowing elliptical curves of ODYSSE highlight the contrasts and harmonies between colours and materials and add to the ergonomic user-friendliness of the product.

Equipped with an INTEL Celeron 2.5Ghz processor (or an optional INTEL P4 - 2.6Ghz), a second hard disk and 14 communication ports, ODYSSE can easily handle all ePOS applications.

Maintenance is made simple, with quick access to the hard disks and mainboard by the removal of only a few screws.

*POSLIGNE® is a trademark of AURES Technologies

Clip'n Color

Odysse can change colour to match its surrounding using a clever clip-on system.

The interchangeable polycarbonate colour clip-on bezel, customer display surround and hinge covers can be easily attached and detached, allowing ODYSSE to adapt to any environment.

Colours of the system base

-  pearl
-  graphite

Colours of the clips

-  tonic orange
-  carmine red
-  pure white
-  spice yellow
-  soft blue
-  indigo blue
-  metal grey
-  racing green

option for second hard disk

Compact Flash Card reader

easy access to disk(s), without any tool

2 USB retail DVD and CD readers

interchangeable clip kits
