

Desktop Ticket Printers

Enabling customers to buy or collect tickets on demand

ND4020 Magnetic Ticket Printer

ND4020 Desktop Ticket Printer

ND4000 Series

The Newbury Data ND4000 range of thermal ticket printers is capable of printing, encoding and verifying credit card sized magnetic and contactless tickets.

The printer range has been developed to provide an economical solution to printing and encoding customer/visitor entry, travel, membership, club, reward, parking and loyalty card tickets.

ND4020 Magnetic Ticket Printer

The printers use direct thermal media, producing high quality print with magnetic encoding compatible to ISO 7811-2 Track 2 standard.

The ticket format is either portrait or landscape. Each character position is individually addressable enabling tickets to be re-printed with additional text and new magnetic encoding to be written on subsequent occasions.

Magnetic Ticket Applications

- UK Rail Tickets
 - Point of Sale
 - Self Service Kiosk
 - Ticket Collection Kiosks
 - Ticket Verification
 - Voiding Tickets
 - Ticket Fulfilment Systems
